Lumaloy Recessed Hose Box (Single Temperature)

Lumaloy, Recessed Hose Boxes are CUPC® certified by IAPMO for U.S. and Canada. Boxes are designed for attractive service in both interior and exterior walls not subject to freezing. Recessed design prevents accidents which are common to surface-mounted or protruding hose valves.

Hose Box is a one piece cast construction and is furnished with two stainless steel angles for anchoring to the wall construction.

Door and Frame are of cast Lumaloy. Door includes a recessed cam latch, which is operable with a loose key by others or with the removable wheel handle on the valve.

Valve and Stop Body is cast bronze with exposed parts chrome-plated. Valve and Stop feature tamper-resistant lockshield bonnet and replaceable cartridge containing all wearing parts including the seat. The body casting is gasketed where it joins the box and is securely anchored with stainless steel tamper-resistant screws. Supply inlet is 3/4" NPT female. Outlet is 3/4" male hose thread.

-SSLF stainless steel lead free option provides a rough finish, cast stainless steel valve body, stainless steel stop assembly, stainless steel lockshield cartridge and meets the lead free requirements where the wetted surface of this product contacted by water contains less than .25% lead. On models that include vacuum breakers, a lead-free brass vacuum breaker is provided.

Screwdriver Stop in supply permits servicing the control valve without shutting down the water supply. Vacuum breaker models prevent contamination of the potable water supply. Vacuum breakers are atmospheric type and conform to the requirements of ASSE Standard 1011. Check local code authority for vacuum breaker requirements.

GUIDE SPECIFICATION

Box shall be one piece cast construction, fabricated from Lumaloy with plain finish. Frame and door shall have a prime coat finish. Door shall have a recessed cam latch operable with a loose key by others or with the removable wheel handle on the valve. Valve shall be a replaceable cartridge type with vandal-resistant lockshield bonnet, removable loose key wheel handle and screwdriver operated stop.
